1) SCREENED IN PATIO AREA

Some owners have requested that the HOA explore the level of interest and requirements for allowing unit holders that have patios to screen them in.

A _____ I do not agree with allowing screened in patios within The Plantation Point Community

B _____ I agree with allowing screened in patios within the Plantation Point Community. Any screening would be a preapproved design to ensure consistency within the community. Installation and maintenance would be at owner cost.

C _____ I agree with allowing screened in patios within the Plantation Point Community, providing that **all owners** with patio areas are **required** to screen them in to maintain consistency throughout the entire community. Installation and maintenance would be at the owner's cost.

The cost of installation for screened in patios would be approximately \$400 per patio/balcony.

2) COMMUNITY NAME CHANGE

Some owners have requested that the HOA explore the level of interest and requirements for changing the name of the "Plantation Point" community to another name that did not include the word "Plantation."

A _____ I do not agree with changing the name of Plantation Point

B _____ I agree with changing the name of Plantation Point
